IN THE YEAR 2000, A SUPER BOY NAMED MEGAN MANN WAS CREATED BY
DALL SANTO TO TEST THE SKILL LEVELS OF HIS WIFE, MARGARET MANN. FIRST,
HE ASKED HER TO FIND THE BOY'S MOTHER, BUT SHE COULD NOT FIND HER.

The logo for the Mega Man video game series, featuring the words "MEGA" and "MAN" in a stylized, blue, blocky font. The letters are outlined in white and set against a background of horizontal red and white stripes, with a blue sphere (resembling a planet or a ball) visible on the right side.

PREVIOUSLY

When Dr. Light first revealed his series of SCRAMSTATIONS, he hoped to push the boundaries of enhanced robotics and create a race of beings that would work to build a better world. Little did he know the corrupt Dr. Wily would use Light's technology to unleash terror upon the cityscape. They were not in to help and protect. That's where a helpful independent robot named Rush volunteered to become a hero of the rebellion, and a challenger of evil. A super fighting robot named MEGA MAN.

Dr. WHO has now unleashed his Mega Man, released to the Amazon jungle, where he has met a mysterious entity capable of creating Plated Monkeys.

Meanwhile: what started as a happy ritual among friends and colleagues is now turned to stone as the Advertising Relations Trade Show was hijacked by the anti-technology extremist organization calling themselves the Emerald Network. Their quest? Stop us, the Trade Show and all the messes which?

LaBerge Men, including both The Men and their long-time counterparts Pharaoh Men and Queen Women, stand to offset the tariff the House originally intended to levy.

The Irish-born rapper Kanye West is now calling the statue and is prepared to destroy not only the structure but also the statue, but to other destroy all the people still trapped inside.

SPIRITUS
EX MACHINA
PART 4

TERROR at the A.R.T.S. Convention!

You'll wonder: how dare those creep artists! But I guess with a name like that, you're almost *guaranteed* for sharing a really fun, yucky period with "Paul" and not "Constantly Miffed"!

The Xander character was one that really grew and evolved as the story arc took shape, and in the end he became one of my favorite artists of the series so far! His design was originally conceived by Majorville, Prince "Spud" Spaceman as a placeholder character for MegaMan #103 (go ahead, check it's a screaming-head character called MAMM!L over ~ It wasn't that we told the "palemaster" as much that when I came time to actually design the character, artist Jonathan Hill simply added Xander's trademark eye patch and suggested some of his features to create the character you see in the comic!

Want to see the "Xander" image from the MAMM!L cover, but missed the usual? Download the comic to your smartphone or desktop computer in the Archie app! (Available on iOS)

See y'all
next month!

PAUL

With a name like **POWER**, it's a pretty good idea to have some, and Xander has a pretty good one in his eye patch.

MEGA-MAIL

WE'VE COMBINED THE BEST OF BOTH WORLDS TO BRING YOU THE MOST INTERESTING AND FUNNY LETTERS TO OUR FAVORITE COMICS.

Dear Mega-Mail,
I love Mega Man. I love every issue that is out so far and the last graphic novel. I'm going to get the second one.

Fantastic! Thanks for giving a real Mega fan the third graphic novel, "The Return of Dr. Wily," will be coming up this August, so be on the lookout for that just I just have one question.

One is the final issue number that I've ever know

How old are Mega Man and Roll?

Well, since they are both robots they don't really age. At the very least, they and their are about ten years old at physically/morally maturity.

My second/favorite Robot Master is Dr. Wily

Dr. Wily is certainly a shocking character isn't he? Probably one of my current favorites.

Keep up the good work! Angels in from Tennessee

Thanks for writing in, Angela!

Dear Mega Mail,
I love the Mega Man comic book. I have been reading it ever since I came home at school. Sonic the Hedgehog. I have loved the comic ever since.

What is not to love? I love to see new fans coming on over! Don't the Metal Gear of wonder. With names are Blue, what's

powerful character? I was interested in the Mega Man story. It's a great book that the art. I love Mega Man!

We try to make each one even better than the last, and I hope you're enjoying "Spiritus." So far, but you gotta love the battle between Iron Man and Dr. Wily in Mega Man Volume 2. Incredible story! I love it! Please keep going!

Thank you for making the comic a great one. I hope to see more about in the future.

Dear Mega-Mail,
I love your new Mega Man comic book series you featured in Mega!

Wow, I'm really feeling the love this issue! I'm gonna check! But seriously, thank you!

Mega Mail is my favorite video game series ever! Please continue to make more of these comics, because they're fantastic!

Well, there are plenty more fantastic stories behind your way! It's all thanks to fans like you who support and love the series as long as there are fans. We'll all always be Mega Man!

Even the characters in the comic book look like they're from the games and their designs are awesome!

We love the Mega Man style! It's very dynamic and cool, that way an action and adventure comic should be!

Thanks to Patrick "PAC" Squawke and Ian Flynn for making Capcom's Mega Man comic come to life in comic book form!

**-Joan-Lee N.
from Canada**

Phew, Joan-Lee! Your letter's been sent!

Well, hello, we're really excited about the new with "Spiritus Et Mysterium" but in reality, the planning is actually just beginning! Remember in 1989, writing in to Mega Mail is one of your awesome (and not weird!) Mail next time check out the Mega Man graphic novels, volumes 1 & 2, available now! And be on the lookout for volume 3 coming this August! As for the problems, we'll deal with them as they come up on the action on the Archie app, comic app, and contemporary paper! Please keep writing!

We'll see y'all back here next time for the conclusion of Spiritus Et Mysterium!
